There is some satisfaction to live on a street like this.

Home Beautifying Suggestions

We have lately purchased a supply of booklets which are worth 50 cents each that we propose to give away to prospective customers. If you are interested in improving the appearance of your home or rental property we will be glad to give you one of these delightful little volumes which are printed in the highest type of the art.

It is practical in place of being technical and teaches by example in place of by precept or argument. We consider it one of the best helps that home owners who do not want to leave all the details to a Landscape Architect have ever had a chance to get.

We have reserved a copy for you, and if you will call for it within a reasonable time, phone us or drop a card, any way you see fit to let us know that it will be of service to you, it will be promptly delivered to your address without any charge or obligation on your part to buy anything from us.

It was once a sign of some distinction to own a good Automobile, but that day has passed. Everybody and their cousin owns a machine of some type now, but if you take note as you ride around your city you will immediately be convinced that a well planted lawn is a pretty good sign that worthwhile people live there.

We will be glad to send you our catalogue, if you prefer to buy by mail, or our salesman will confer with you at your home, or you will be welcome at our offices at your leisure.

THE WESTMINSTER NURSERY

J. E. STONER, Proprietor

Can You Say This Of Your Home?

My home is surrounded by beautiful shrubs and trees that give me pleasure at the sight of them. While my house has been built several years and more pretentious residences have been built in the neighborhood, none of them have exceeded mine, because nature has been helping me beautify it, and an ideal home is where nature finds its fullest and truest expression. If I wished to sell my property I would ask a much larger price, and sell it much easier than the same building would bring had I not planted these shrubs and trees, and I can only be thankful to myself and the Nurseryman who helped me to beautify my home in this way.

Let Us Make These Words Truly Yours.

Planting a Home is Not an Expense

But a Profitable Investment

It pays dividends of satisfaction. It does not require new tires or eat gasoline, and it is greater distinction than owning a sedan. Count the good plantings and automobiles in town and you will see why its value increases with age, and never has to be renewed.
